

Dear Sirs, Satellite Radio IS The Future. Do You Want To Be Seen As An Old
Timer Or Someone Who Looks To The Future.
It's Called Competition Boys.
And If You Look Out Your Window....Guess What You Will See.....USA.
Freedom.

Let The People Choose "Has Been" Local Programming Or "AD Free" Radio. If
XM What To Invest \$\$ In Providing Local Traffic And Weather...So Be It.

Just Like TV . Local Or Satellite. Let The People Choose.

Thank You.
